## DIRECTIONS:

**Daily Maintenance:** Dilute 2 oz. per gallon (1:64) with water. It is recommended that a proportioning system is used. Using a clean, heavy-duty cotton or blend mop head and commercial-type mop bucket, thoroughly mop floor. Rinse mop head regularly and wring out excess solution.

**Heavy Soil or Degreasing:** Dilute 4 oz. per gallon (1:32) with water. Apply solution to floor using a mop or foam gun. Let solution soak for 5 to 10 minutes or longer. More dwell allows the solution to work on dirt and grease build-up. Scrub the floor thoroughly using a deck brush or electric scrubber. Rinse and damp mop dry with a fresh mop and clean water. If cleaning a large area with adequate drainage, rinse, squeegee into drain and damp mop dry.

**Auto Scrubber Machine (with wet Vacuum Attachment):** Dilute 1 oz. per gallon (1:128) with water. Clean floor pursuant to the machine manufacturer's instruction.

## SAFETY ON MATERIALS:

Always test on an inconspicuous area to make sure the cleaning agent does not adversely affect or damage the surface to be cleaned.

## PRECAUTIONS:

**DANGER:** Causes severe skin burns and eye damage.

## HANDLING and STORAGE:

Do not breathe mist. Wash face, hands and any exposed skin thoroughly after handling. Use personal protective equipment as required (See Section 8 on the SDS). Avoid release to the environment. Store in a well-ventilated place. Keep container tightly closed. Keep out of reach of children. Dispose of contents/container to an approved waste disposal plant.
